
GOLDENWALL
Inkiostro Bianco

GOLDENWALL

Goldenwall is a collection of decorative surfaces enriched with metallic gold finishes, available in the Gold Leaf, Pink Gold and Gold Vinyl variants. Designed for interior applications, it combines brightness, materiality and customization to transform walls, ceilings and furnishing elements into striking decorative features with strong aesthetic value.

The metallic surface adds depth to the decoration and interacts with light through shifting reflections, enhancing the perception of the graphic design and creating visual effects that change according to the space and viewing angle. The graphics are specifically designed to enhance the characteristics of the support, emphasizing its brilliance, texture and material quality.

The technical composition ensures stability, ease of installation and removal, offering a versatile decorative solution for residential, commercial and hospitality spaces.

Goldenwall è una collezione di superfici decorative impreziosite da finiture metalliche dorate, disponibili nelle varianti Gold Leaf, Pink Gold e Gold Vinyl. Pensata per applicazioni in interior design, combina luminosità, matericità e personalizzazione per trasformare pareti, soffitti e complementi d'arredo in elementi scenografici dal forte valore estetico.

La superficie metallica dona profondità al decoro e reagisce alla luce con riflessi cangianti, amplificando la percezione della grafica e creando effetti visivi sempre diversi a seconda dell'ambiente e del punto di osservazione. Le grafiche sono progettate appositamente per valorizzare le caratteristiche del supporto, esaltandone brillantezza, texture e resa materica.

La composizione tecnica garantisce stabilità, facilità di posa e rimozione, offrendo una soluzione decorativa versatile per ambienti residenziali, commerciali e hospitality.

NOTE:
All designs featured in this catalogue are suitable for printing on the entire range of Goldenwall materials: Gold Leaf, Pink Gold and Gold Vinyl. If you cannot find your preferred combination of design and material, or have any additional enquiries, please contact our Customer Service team.

NOTA::
Tutte le grafiche presentate in questo catalogo sono studiate per essere stampate sull'intera gamma di supporti Goldenwall: Gold Leaf, Pink Gold e Gold Vinyl. Vi invitiamo a contattare il nostro Servizio Clienti qualora non trovaste la combinazione di grafica e materiale desiderata o per qualsiasi ulteriore richiesta.

SUBTEXTA

COLLECTION 2026

Subtexta is the chapter in which perception becomes layered, inviting the eye to move beyond the surface and discover subtexts, silent visions and hidden worlds. The graphics transform the wall into a system of light superimpositions, where networks, natural silhouettes and airy geometries intertwine in a dynamic balance between solids and voids.

The collection builds a visual narrative made of layers, depth and details to be gradually explored. On the Goldenwall support, gold loses its monumentality to become a more subtle and luminous presence: not simply a background, but a hidden light emerging through the textures of the design, amplifying the immersive and decorative effect of the space.

Subtexta è il capitolo in cui la percezione diventa stratificata, invitando lo sguardo ad andare oltre la superficie per scoprire sottotrame, visioni silenziose e mondi nascosti. Le grafiche trasformano la parete in un sistema di sovrapposizioni leggere, dove reticoli, silhouette naturali e geometrie aeree si intrecciano in un equilibrio dinamico tra vuoti e pieni.

La collezione costruisce una narrazione visiva fatta di livelli, profondità e dettagli da esplorare progressivamente. Sul supporto Goldenwall, l'oro perde la sua monumentalità per diventare una presenza più sottile e luminosa: non semplice sfondo, ma luce nascosta che emerge attraverso le trame del disegno, amplificando l'effetto immersivo e decorativo dell'ambiente.

Giulio Iurissevich

×

GIULIO IURISSEVICH

Giulio Iurissevich is an illustrator and visual artist active since the late 1990s, known for his distinctive, vibrant line and for placing the female figure at the center of his visual language. He has collaborated with international magazines such as Elle, Marie Claire, and Gala, as well as global brands including Pepsi, Lenovo, and Adobe, contributing to the historic splash screen of Adobe Illustrator.
His work has been repeatedly selected for Lürzer's Archive's "200 Best Illustrators Worldwide" and has been exhibited internationally, including at the Triennale di Milano.

Giulio Iurissevich è un illustratore e visual artist attivo dalla fine degli anni '90, noto per la sua linea vibrante e riconoscibile e per la centralità della figura femminile nel suo linguaggio visivo. Ha collaborato con riviste internazionali come Elle, Marie Claire e Gala, oltre che con brand globali come Pepsi, Lenovo e Adobe, contribuendo anche allo storico splash screen di Adobe Illustrator. Più volte selezionato tra i "200 Best Illustrators Worldwide" di Lürzer's Archive, ha esposto in contesti internazionali, tra cui la Triennale di Milano.

The following selection brings together a series of graphics developed by Inkiostro Bianco over the years specifically for the Goldenwall support. Each design has been conceived to interact with the metallic nature of the surface, enhancing its reflections, depth and luminous variations. The collection therefore represents an archive of decorative proposals in which graphic language meets the material qualities of the support, giving life to visual solutions designed to fully express its aesthetic potential.

La selezione che segue raccoglie una serie di grafiche sviluppate da Inkiostro Bianco nel corso degli anni appositamente per il supporto Goldenwall. Ogni disegno è stato pensato per dialogare con la natura metallica della superficie, valorizzandone riflessi, profondità e variazioni luminose. La raccolta restituisce così un archivio di proposte decorative in cui il linguaggio grafico incontra le qualità materiche del supporto, dando vita a soluzioni visive pensate per esaltarne al meglio il potenziale espressivo.

TECHNICAL SPECS

Size / *Dimensioni*

All designs are presented at a reference height of 3 metres and can be resized to suit individual project requirements. Resizing may affect image resolution and the level of detail in the final print.

Tutte le grafiche sono presentate con un'altezza di riferimento di 3 metri e possono essere riproporzionate in base alle esigenze progettuali. Il ridimensionamento può influire sulla risoluzione e sulla definizione dei dettagli in stampa.

GENERAL NOTES

1. **Colours on the finished product may differ from those shown in printed and digital catalogues due to differences in printing processes and display devices.**

2. **The Goldenwall designs have been developed with colours specifically calibrated for their intended materials. The original colour combinations are designed to enhance the distinctive qualities and appearance of each surface.**

   Reproducing a design on a different material requires colour adjustments and the production of a sample to assess the final print result.

NOTE GENERALI

1. La resa cromatica dei decori sul prodotto finito può differire da quella riprodotta nei cataloghi cartacei e digitali, a causa delle differenze tra i sistemi di stampa e i dispositivi di visualizzazione.

2. Le grafiche delle collezioni Goldenwall sono state sviluppate calibrando le cromie in funzione del supporto previsto per ciascun decoro. Le combinazioni cromatiche originali sono studiate per valorizzare le caratteristiche e la resa estetica di ogni superficie.

La riproduzione delle grafiche su supporti differenti richiede un adattamento cromatico e la realizzazione di un campione per valutare la resa finale della stampa.

Carte da parati, rivestimenti in legno e tappeti di design.
